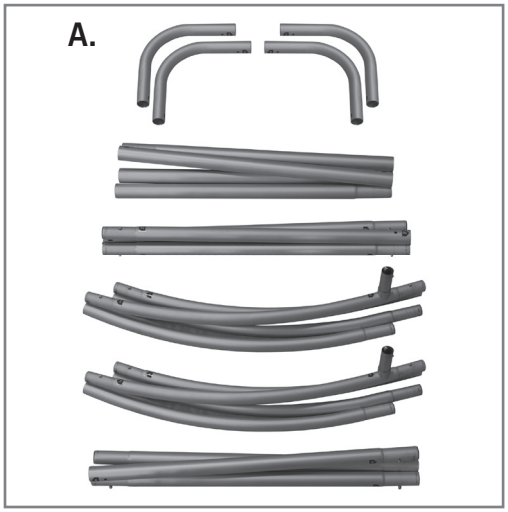
# TENSION WALL WAVE

Assembly Instructions | R1.031517

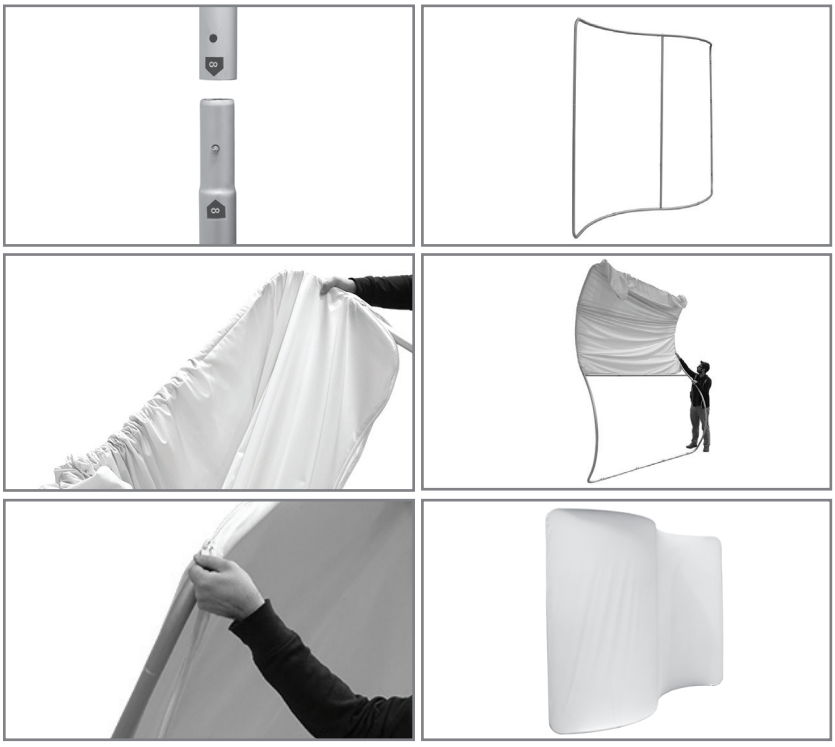
## ASSEMBLY HARDWARE



**A.** Frame Poles

Tension Wall Wave

## ASSEMBLY



1. Each piece of the aluminum frame will have sticker(s) with numbers to indicate which pieces connect together. To assemble the frame, connect together the Frame Poles (A) with matching stickers. Ensure that the poles snap into place. When fully connected, you will feel or hear a click.
2. Lower the frame toward the ground.
3. Place the print onto the side of the frame. Slide the print over the frame. Secure the print by zippering shut the print over the frame.
4. Stand the frame upright.
