

PRODUCT USAGE

This product is recommended for indoor or outdoor use.

DESCRIPTION

This Bowflag® Basic flex banner displays an eye-catching teardrop shape and is constructed of aluminum and fiberglass poles. The custom print is finished in either a single-reverse or double sided layout with a reinforced pole tip and printed pole sleeve. Six sizes are available with a maximum height of almost 14' and maximum print size of approximately 4'x12'. The poles for this promo flag can be fitted together for a quick and easy assembly that doesn't require tools. It can also be stored and transported in the included economy bag or optional carrying case for added security. Your client can mount their Bowflag® Basic Drop to one of our many base solutions for use indoors to greet a company's visitors or outdoors to attract attention for a holiday parade.
