

# BOWFLAG® PREMIUM Arrow

Technical Specifications | R1.050613

## PRODUCT USAGE

This product is recommended for indoor or outdoor use.

## DESCRIPTION

The Bowflag® Premium Arrow is constructed of aviation-grade fiberglass, aluminum, and steel poles for an extremely durable flagpole. This particular model features an arrow-shaped print with graphics that cover the pole sleeves in place of black poly-stretch header tape. The Bowflag® Premium comes in three sizes, standing at a maximum height of 15' tall. Setup of this flagpole can be done in a matter of minutes with no tools necessary. It can be stored effortlessly into the included economy bag or optional carrying case with handles and individual pockets for transport. The Bowflag® Premium Arrow can be used indoors or outdoors to promote a holiday event for the community sponsored by a local business or to advertise a museum's newest exhibit.
