

POP OUT

Technical Specifications | R1.050613

PRODUCT USAGE

This product is recommended for use indoors or outdoors.

DESCRIPTION

Our Pop Out display is a unique advertising tool constructed of flexible fiberglass poles. Because it uses two custom prints, this Pop Out display can show either the same image on both sides for a greater impact or a different image on each side for more exposure. The Pop Out can be set up in seconds with no tools required. Simply put the two prints together and attach them to the carrying case, which doubles as the base. When you're finished, the Pop Out prints can be taken apart and folded up to fit into the carrying case for storage and transportation. This Pop Out display is great for both indoor and outdoor events to endorse a political campaign or direct runners in a marathon.

PRODUCT SPECIFICATIONS
